### About Us

NINSON as the registered entity for trading company established on 24/06/2012 under the Ministry of Trade- Kurdistan Region, Republic of Iraq. As a business entity we kept our commitment with our clients by delivering the service with trust during economic downturn in Kurdistan.

NINSON business model is driven by the philosophy of Transparency, Trust and Treatment. Our business is transparent to clients; we deliver the trust for the continuation of business; and treat our customer the best by fulfilling their requirements from different pursuits of business with the commitment of quality and on time supply.

NINSON customer satisfaction policy is based on offering a broad category of products and services to supply, some ready in stock and some on requisition. We are committed to avail the product of competitive brands with maintaining the price across industry and across market.

#### Vision

Our vision is to be the competitive supplier fulfilling the demand of growing industry through point to point reach of our products and services and enhancing the customer trust by innovation.

#### Mission

Build the best network with companies all around the world to bridge between production and consumption that can assure the connectivity of world resources with sustainability leading to the culture of transparency, trust and treatment.

#### Values

Learning from all sphere of business from expanding industries where the change in technology and culture is being most vital and from customer's changing requirements which give the scope to reach the boundless opportunities.
